AIRFORT

AIR

The Ultimate Comfort

KOKUYO

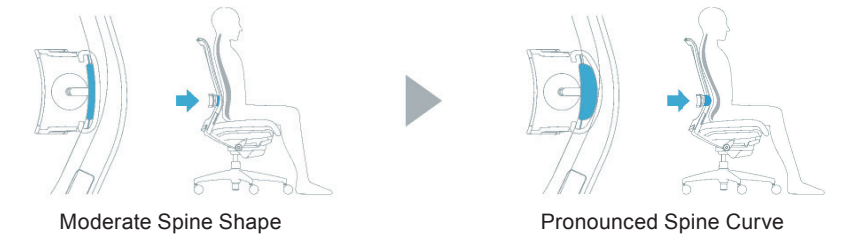

Innovative design with advanced functionality.  
The air-controlled lumbar support and heat dispersing cushioning,  
pave the way for a new era of comfort and style.

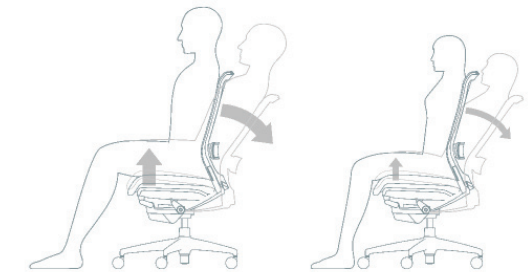

## 1 AIR-LUMBAR SUPPORT TECHNOLOGY

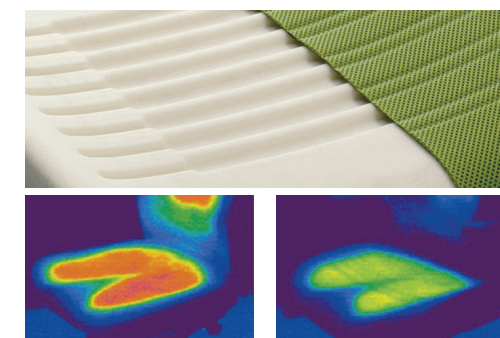

A key component of that functionality is its concealed adjustable lumbar support air bag. It allows the shape of the backrest to custom to suit the shape of the user's spine. Those with a more pronounced spinal curvature can inflate the air bag to increase support to their lumbar region. This customised support relieves fatigue over long period of sitting and improve our sitting posture.

## 2 AUTO TILTING MECHANISM

The auto tilting reclining mechanism allows users to gently recline in full comfort and support. It supports the user's weigh and reclining tension according, thus there is no need for a lever to adjust the reclining tension.

## 3 DIMENSIONAL SEAT MESH

The seat cushion composed of riveted urethane covered in three-dimensional mesh, disperses the body's heat on the seat during long hours of sitting on the chair, maximising the comfort for the users, thus making AIRFORT the ideal choice for today's demanding business environment.

AS VERSATILE AS AIR ITSELF.

AIRFORT innovative high quality design and stylish aluminum componentry ensures that AIRFORT fits into all office environment and provide the best comfort for the users.

It comes with optional accessories to suit your preferences.
