Hemming

ヘミング

A person's natural grace is most apparent when they are seated with ease and without tension. Our primary challenge was designing a product that allows anyone to achieve this level of comfort and effortless posture.

Inclusive Design

Beyond "easy to sit on," towards a chair that is "easy to use".

We've re-examined the essential functions of a chair by focusing on the core actions of pulling, sitting, standing, and stacking. Our design process involved people of different body types, a wide range of ages, and those with disabilities—groups that often find chairs challenging to use.

By breaking down the user experience into these key actions, we're pursuing the most optimal form for each one, creating a chair that is truly effortless and accessible for everyone.

Function & Detail

The result of extensive user testing, this is a beautiful and intuitive form designed for effortless use by everyone.

01 — Comfortable shape

Human-centered design that embraces you.

02 — Easy-to-handle shape

(LEFT)

A handle designed for easy, one-handed pulling.

(RIGHT)

Smooth, snag-free leg tips for seamless movement.

03 — Easy-rise shape

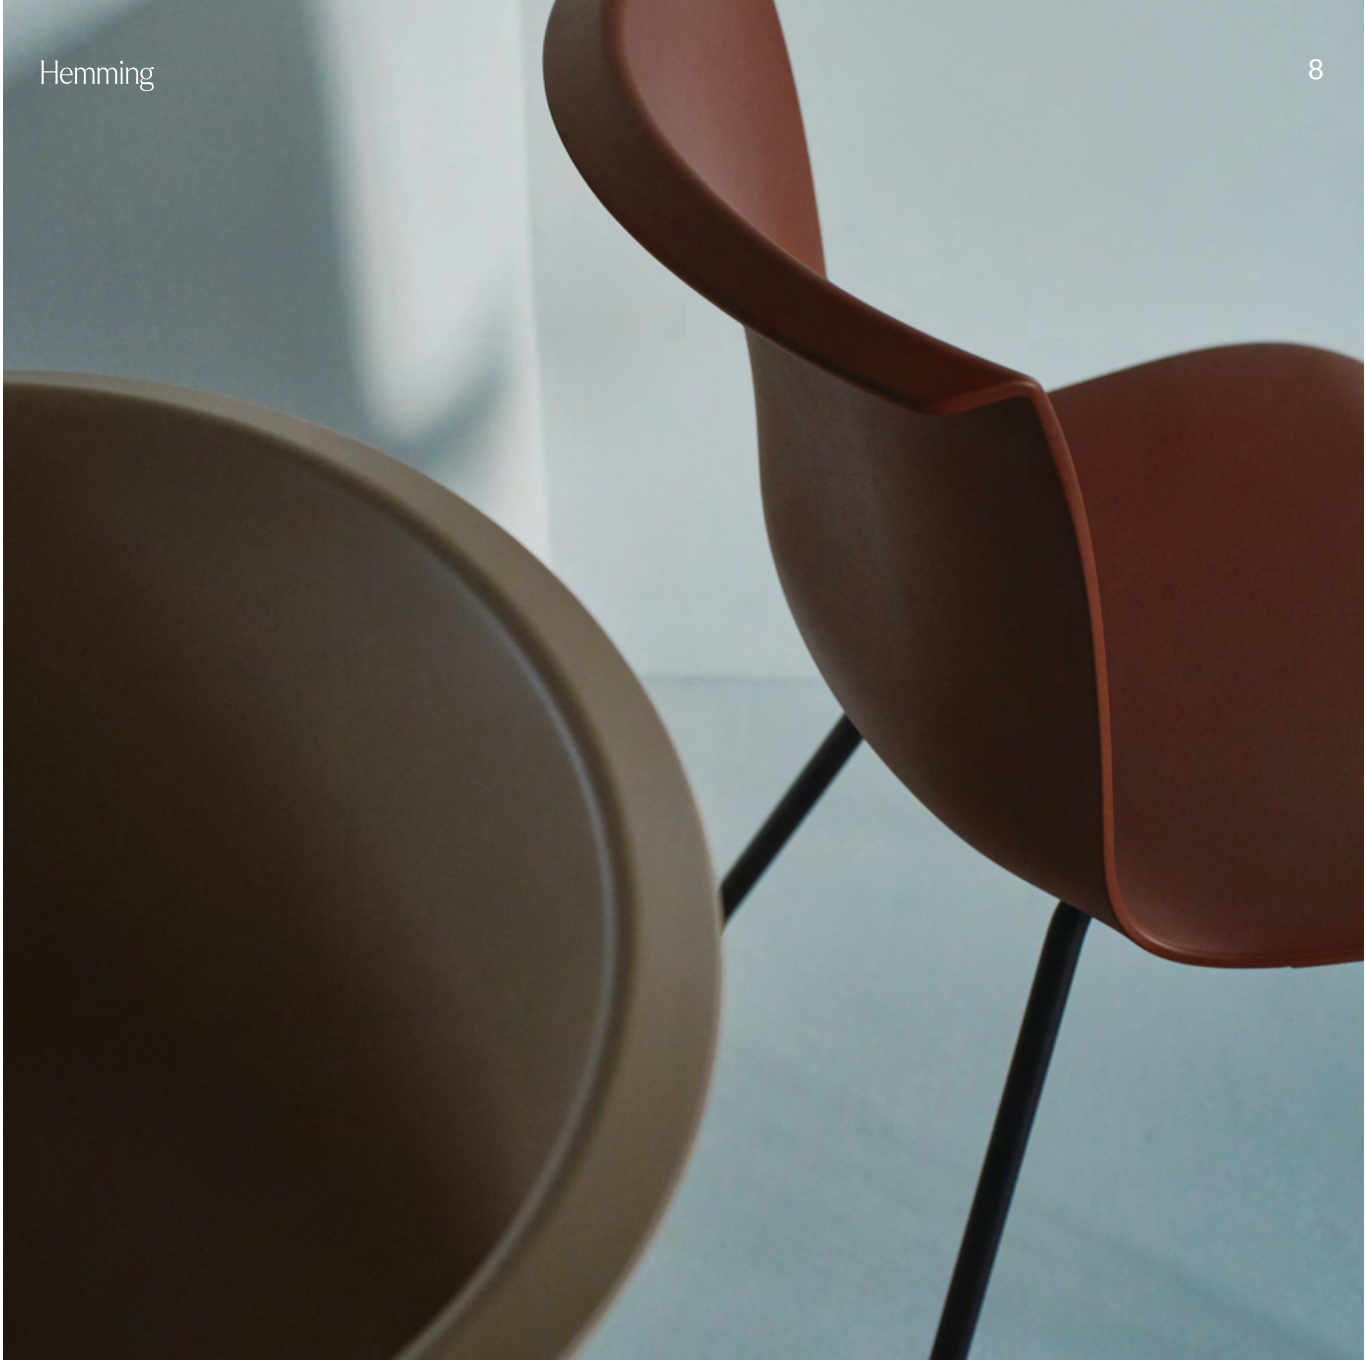

(LEFT)

Armrests are shaped and positioned to give you leverage, making it easier to push up and out of the chair.

(RIGHT)

A seat contoured to make turning effortless.
